

HEI poster regarding off-grid photovoltaic solutions will be shown on the EU PV-exhibition in Valencia.

High-efficient cylindrically shaped photovoltaic modules are main focus of the presentation.

(1.9.2008) - The PV-exhibition in Valencia, taking place from 1 to 4 of September 2008 offers an overview of innovations and advancements of numerous exhibitors, concerning the solar and photovoltaic sector, to all visitors.

The HEI Consulting GmbH participates in this poster show with a presentation of the revolutionary new solution for PV-modules for **hei solar light™**.
