

## Welcome to the future of solar lighting, welcome to hei!

hei is an Austrian company, established in 2001 and based in Vienna, specialising in creating cutting edge solar outdoor lighting. We emphasis aesthetic, technical and practical excellence in every part of our business, working together to create a premium quality product. We are proud to have products installed across the globe, from the USA through Europe to the UAE. We also pride ourselves on the highly diverse nature of our colleagues, with over 15 nationalities being represented in our 40 employees!

To enhance our team, we are looking for an

## Mechanical Engineer / Automation Engineer (m/f/d)

to join our company as soon as possible.

### Your responsibilities

- Specification, conceptual and detailed design of equipment and machinery for automated production lines for solar lighting components
- Sourcing of equipment and machinery at external suppliers (incl. price negotiations)
- Integration, commissioning, and testing of new equipment and machinery into in-house production lines
- Technical documentation, such as manuals, drawings, maintenance plans and troubleshooting guidelines.
- Technical support
- Project management according to cost, quality, and time constraints

### Your qualifications & skills

- A university master's degree in mechanical engineering, automation engineering, or similar qualification
- At least 5 years of experience in conceptual and detailed design of automated production equipment / machinery
- Very good knowledge in CAD-design (preferably SolidWorks)
- Good knowledge of hydraulic and pneumatic systems
- Experience in PLC (Programmable Logic Controller) and HMI (Human Machine Interface) programming
- A structured and independent way of working and a precise working style
- Team orientation, excellent communications skills
- Excellent written and spoken English skills
- Enthusiasm for innovative, environmentally friendly products with high quality design standards

### What we offer

- A diversified job
- Innovative and unique products with a high market potential
- Performance-based pay
- A high degree of personal responsibility
- Cooperation with an international team

The minimum yearly salary (based on the Collective Agreement) amounts to € 45.000. The actual salary is higher and is aligned to professional experience and qualification.

### The application process

---

To apply please send **one document containing your CV, and a short covering letter** detailing why hei appeals to you and what skills you can bring to us to [recruitment@hei.at](mailto:recruitment@hei.at).

Once received, please allow us approximately two weeks to review your application. If we see you as being a good fit, we will arrange an in-person or online interview depending on your local availability.

From then we will evaluate your interview performance and invite you for a second follow-up interview to further get to know you and to give you a chance to meet the team.

Following a successful interview an offer is usually made!

We look forward to receiving your application!

**HEI Technology International GmbH, Ameisgasse 65, A-1140 Vienna, Austria.**
